BIM and VDC CAPABILITY STATEMENT

Hilton Consulting Group is a **small, woman- and minority-owned** firm specializing in expert Building Information Modeling (BIM) and Virtual Design and Construction (VDC) services. We partner with owners, designers, and contractors across the public and private sectors to deliver tailored digital solutions for residential, commercial, transportation, infrastructure, and healthcare projects.

Our core expertise lies in providing comprehensive BIM support and managing multi-disciplinary coordination for complex projects. We deliver tailored solutions in **3D modeling coordination, advanced clash detection, 3D model review, and model based schedule forecasting, 4D/5D cost integration, and financial reporting.** We specialize in solving intricate spatial and constructability problems by translating complex data into easy-to-understand 3D and 4D visualizations.

CORE COMPETENCIES

-  3D Modeling
-  Clash Detection
-  Trades Coordination
-  Model Quality Review
-  4D Schedule and Video
-  5D Cost Integration

PAST PERFORMANCE

Sandy Mitigation at Coney Island Site

Empire Outlet at Staten Island

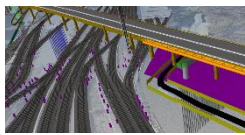

Henry J. Carter Specialty Hospital

Pittsburgh International Airport (TMP)

Darla Moore School of Business

Bronx River Parkway Bridge Improvements

Intel Campus Sarjapur Ring Road Building 3

North Shore University Hospital

FEATURED CLIENTS

New York City Housing Authority (NYCHA)

New York City Economic Development Corporation (NYCEDC)

New York City Health + Hospitals Corporation (NYCHHC)

New York State Department of Transportation (NYSDOT)

Intel

North Shore University Hospital
