

## SUSTAINABILITY CAPABILITY STATEMENT

Hilton Consulting Group is a **small, woman- and minority-owned** firm specializing in high-performance building sustainability services. We guide project teams through the complexities of the USGBC LEED certification process from conceptual design through construction administration, managing everything from multidisciplinary documentation, **LEED Online credit tracking**, and submittal coordination across design and construction partners.

To optimize environmental performance, the firm conducts early-stage **LEED scorecard** assessments to define achievable certification pathways, including Silver, Gold, and Platinum. Additionally, they leverage industry-leading energy simulation tools for advanced **energy modeling**, analyzing building energy use and savings based on ASHRAE 90.1 standards to calculate LEED Energy and Atmosphere (EA) credits.

### CORE COMPETENCIES

-  LEED Scorecard Assessments
-  Energy Modeling
-  LEED Documentation
-  LEED Online Tracking
-  LEED Submittals Review
-  Certification Feasibility & Strategy

### PAST PERFORMANCE

U.S. General Services Administration

Capital Senior Housing

Associated Builders & Contractors of GA

Construction Management Center

Duberstein U.S. Bankruptcy Courthouse

Henry J. Carter Specialty Hospital

Blue Rapids Elementary School

Gwinnett Technical College Design Center

### FEATURED CLIENTS

General Services Administration (GSA)

New York City Economic Development Corporation (NYCEDC)

Capital Senior Housing

Associated Builders & Contractors of GA

Southern Polytechnic State University

Gwinnett Technical College Design Center

### DIFFERENTIATORS

Total Projects Value

**\$341M**

Projects Completed

**10+**

LEED Energy Modeling

**5+**

LEED Certified Buildings

**9+**
